Manufacturing Plant Tour Event!

Building a Sustainable Manufacturing Model

A Practical, Hands on Look At How the Sustainability Focus has Enhanced ***Dorel Juvenile Group's*** Global Position

Date: Wednesday, February 24, 2010
Time: 10:00 A.M. – 2:00 P.M.
Place: Dorel Juvenile Group **(Columbus, IN)**

Topic of Focus: Plastics manufacturing company executives are aggressively looking for ways to improve their operations. Most organizations are focused on reducing scrap, improving cycle times, eliminating quality defects, and increasing labor efficiencies. Dorel Juvenile Group is no different. However, in their quest to maintain their status as a world class manufacturing operation, they have strategically focused on maintaining a **sustainable operation**.

Dorel's sustainability focus includes building a strong, integrated culture of improvement; a culture that inspires innovation; a culture that promotes employee involvement; a culture that promotes environmental stewardship, and a culture with little tolerance for production inefficiencies or operational waste.

Benefits of Attending: During this plant tour event, MAPP Member participants will have the opportunity to tour the production operations of Dorel. During the tour, attendees will have the chance to learn from and interact with employees at all levels of the organization. Specific take-aways of touring this leading edge manufacturing facility will include: Building a Continuous Improvement Culture; Maintaining 5S and a Lean Initiative Focus; Methods of Maximizing Employee Involvement; Waste Management; Minimizing The Environmental Footprint of a Manufacturing Facility; Recycling and more…
